📍 Glendale, Arizona

SUMMARY

Experienced Software Project Manager with demonstrated success leading cross-functional global teams, managing scope and budgets, negotiating complex contracts, and implementing agile processes. Track record of delivering projects on time and on budget, reducing operational costs and team size, and preventing revenue loss. Strong leadership and communication skills.

EXPERIENCE

Technical Project Manager   2018 - Ongoing
Hahn Inc   Glendale, Arizona
- Lead cross-functional global teams of 200+ size and $20+ million budget for a major global business transformation initiative.
- Achieved project goals by managing scope, risks, issues, dependency, decisions, and action items.
- Resource forecasting and billing and ensure project adheres to budget and schedule.
- Negotiated terms for complex contracts with external vendors in consultation with Vendor Management and legal to ensure receipt of specific resources, as well as the best value for the organization.
- Established the Earned-Value based Project Controls and Financial Controls functions by implementing a robust reporting tool.

Technical Program Manager   2013 - 2018
Turner - Wisoky   Glendale, Arizona
- Envisioned the catalog feed onboarding and management suite of applications for external partners, its underlying engine and backbone across a multi-year roadmap
- Secured commitments across stakeholders and delivered the end-to-end experience enabling 90% of partner catalog integrations from 4+ weeks to under 1 hour.
- Managing with peer TPM the merging of 2 Catalog processing pipelines across 16 teams against a tight deadline, incorporating the Scaled Agile Framework (SAFe) processes to manage the scale reducing yearly operational costs and team size by 35+%.
- Delivered a critical large scale feed downloader to replace a single point of failure legacy system in time to prevent peak season downtime and potential multi-million $ [undisclosed] revenue loss.

Technical Project Manager   2011 - 2013
McClure, Leuschke and Balistreri   Glendale, Arizona
- Lead the program from Inception to completion across all SDLC by working closely with business and cross-functional project teams.
- Drive the Agile transformation in the organization, including adoption of best practices, tools and metrics.
- Work with Product owners on defining roadmap and release planning & ensure backlog is healthy.
- Organize Scrum ceremonies, remove impediments, resolve conflicts, and protect team from external interferences
- Manage project scope, schedules and budget and define key KPI's to measure and monitor project progress.
